Alright, per the outcome of the meeting, just hold tight until RD gets back with us on what they exactly want.

I updated all the figures on the OneDrive copy (the link at the bottom of this email chain. Its odd that when I try to open it, I get error messages that my Trusted Platform Module has issues, but then opens the document anyway and lets me edit it (probably the same way all the Russian hackers are getting in). If someone could please check to make sure the document was actually updated that would be helpful.
